

BRING NEXT-GENERATION LEARNING TO AUSTRALIAN SCHOOLS

We are thrilled to announce our partnership with Snapplify, which marks the arrival of a second-generation textbook delivery and education content platform in the Australian market. Our team has been working tirelessly to make this possible, and we are thrilled to see our efforts come to fruition. With over 25 years of experience in partnering with schools across Queensland, Sequel Books understands the ever-evolving needs of educators and students. We pride ourselves on providing innovative, cutting-edge solutions that stay ahead of the curve. As we navigate through the current education landscape, it's crucial to have access to the latest digital learning tools and our partnership with Snapplify will definitely be a game-changer for schools across Australia.

Snapplify's award-winning platform has already been the top choice of thousands of schools, colleges, and universities around the globe, offering seamless access to shared digital educational content daily. From software to world-class support, Snapplify delivers a secure, collaborative e-learning environment for students. With their 24-hour-access digital-library solution, students can access thousands of free ebooks and curriculum-approved educational content supplied by publishers from across the world.

Moreover, Snapplify's diversity of device integration allows schools to use its products on the devices they already have, without unnecessary infrastructural changes. Their solutions are industry-celebrated and globally recognised as innovative technologies.

As the educational landscape continues to embrace remote and blended learning, it's crucial for institutions to have access to practical, sustainable, and comprehensive solutions that work in tandem with other digital education tools. With Snapplify's tremendous success track record serving over 1.5 million users we are confident that this partnership will provide Australian schools with an exciting digital learning platform that meets the needs of today's educators and students. We will continue to strive towards offering the latest and most innovative digital learning resources to schools across Australia.
